# | Energy

We provide major power infrastructure, from building substations & switch houses, to decommissioning & installing transformers, as well as cabling for new connections.

The energy market is a key strategic business sector in Northern Iraq. As with all areas of the business, we provide a competent workforce which operates in both CAPEX and OPEX workstreams. A wide range of services are offered, including:

- | Cable installation and jointing up to 132,000 volts
- | Primary substation design and build
- | Tunnel design and construct
- | Electrical installation
- | Gas infrastructure

# Business Area

Energy

Substation & switchgears

Underground cabling & tunneling

Installation & commissioning

Civil works & M&E design

Sulav delivers successful framework contracts for regulated network operators and also undertakes electricity asset contracts for a number of commercial clients.

# | Panels & Distribution - Electrical

Supply of leading brand, electrical equipment and proprietary products for major international projects.

We have a global reach supplying customer in Europe & Middle Eastern markets. Our expert team of consultants are on hand to provide you with a cost-effective,

### Strong Experience

The skills and experience gained over many years mean that we are perfectly positioned to provide expert advice and support to all our customers. During this time, we have supplied many different industries with a multitude of diverse products and services. We have a proven track record, which speaks for itself and allows you to trust our stability and credibility within the electrical industry.

### Quality Assured

We only supply products from leading brand manufacturers, thereby ensuring that all comply with the relevant British and International Standards so you can be assured the products you receive are of the highest quality. It is important to us that all the electrical components and products we supply are manufactured to the highest standards to ensure both safety and quality.

With more than 5,000 products available from stock you can rely on us to fulfil your requirements quickly and efficiently.

| Our experience in the industry makes us aware of our customers' needs and we love building long-term business relationships. As many of our existing clients will testify, we will always go the extra mile to help our customers meet their deadlines - Give us a try!

## Business Area

Panels & Distribution - Electrical

### Products

Supply a wide range of quality electrical products from leading brand manufacturers. All are certified to International Standards to ensure quality, reliability and safety.

- | Cable & Accessories
- | Cable Management
- | CCTV, Fire & Security
- | Data & Networking
- | Domestic Appliances
- | Heating & Ventilation
- | Industrial Controls
- | Lamps & Tubes
- | Lighting Luminaires
- | Switchgear & Distribution
- | Test Equipment
- | Tools & Fixings
- | Wiring Accessories
- | Workwear & Safety

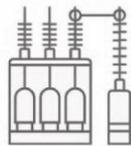

### Distributors

We are an independent distributor and stockist of controls, automation products, cables & accessories for the UK electrical market. We supply to Panel-builders, Original Equipment Manufacturers (OEMs), End-users and other market sectors. We stock and source a wide range of industrial electrical products from major manufacturers. Since 2010 we have also been supplying our most popular products via our on-line request form.

# | Substation & switchgears

As an industry leading electrical installation company in Iraq , Sulav Electrics provides high-quality installation services for all electrical lighting and power systems. Our installation services include Electrical Construction, Electrical Engineering Services, Design/Build Installations, Fire Alarm, Voice/Data/Fiber Optics Systems, and Alternative Energy. We work alongside industry leaders to install the following systems: security, audio/visual, sound, CATV, CCTV, paging, nurse call and card access capabilities. Our wealth of experience has allowed us to successfully partner with clients in the Residential Mixed Use, Retail and Hospitality, Health Care, Commercial, Tenant Interior, Education, and Industrial markets.

Substation  
& switchgears

# | Underground cabling & tunneling

& commissioning

## Business Area

Lighting - Chandeliers

# | Lighting trusted expert

We are proud to be the nation's lighting and electrical leader. From the latest LED products to the older lighting technologies, as well as bulbs, ballasts, drivers, electrical accessories, tools, fans and more, we offer more than 3,000 products, a huge inventory of in-stock items and over a hundred brand names.

LIGHT FOR NEW CIVILIZATION

## | Chandeliers

For centuries, the crystal chandelier has been a symbol of elegance, class and status. Named for the Greek word for ice, "krystallos," crystal lighting possesses an ethereal beauty that has enchanted mankind throughout the ages.

Many traditional crystal lighting styles are still quite prominent today, meaning that those who love this style can certainly find lighting to fit their needs! However, for those who think crystal lighting means nothing but enormous, expensive chandeliers in traditional grand palaces, crystal lighting has evolved to include many applications and highly modern styles. Though heavy crystal chandeliers can overpower smaller spaces, crystal ceiling lights, mini chandeliers and sconces allow anyone to add the sparkle and of crystal to their homes.

Crystal lighting is a timeless choice that adds glamour and visual interest to any space! Although crystal light fixtures are now available at every price point, you'll still want to make sure you choose a piece that looks high-quality and harmonizes with your home. Follow these guidelines to choose a crystal light that you'll want to show off for years.

# Security Cameras

## 5 Reasons Why You Should Get A CCTV Camera System For Your Home

### 1. Deters thieves and robbers

The presence of surveillance cameras and a warning board, stating that the area is under surveillance, can act as a strong deterrent to criminals and thieves, as it is possible to identify people and track their movements, using the recorded footages. In commercial establishments, if there are trained personnel who continuously monitor these footages, it is also possible to track suspicious activities and the possibility of shoplifting by petty thieves, and prevent untoward incidents, before they actually occur.

### 2. To record evidence

In case a theft or any crime does occur, the recordings of a CCTV can be utilized by the police to analyze the incident and produce the footage as an evidence against the criminals, in the court of law. Modern-day monitoring systems can record audio as well. These footages could come in particularly handy, to gather evidence about the entry and exit time of people or if you want to replay a series of events that have actually transpired.

### 3. Monitor suspicious activities

By discreetly mounting secret surveillance cameras, you can collect information about suspicious activities, such as theft of valuables by employees and mistrustful movements of miscreants. As modern cameras are small enough to be concealed, you can collect enough evidence and catch them red-handed, without having to alert them about the presence of a camera.

# | Security Cameras

### 4. Keep a tab on activities

When does your maid come to work and when does she leave? How well does your nanny take care of the baby? Are you doubtful that an employee is faking his/her work hours? You can keep a tab on all of these and much more, by installing security cameras at strategic locations.

### 5. Maintain adequate records

By continuously transmitting the recorded footages on to a central database, you can use both wired and wireless CCTV systems to your advantage. If you want to review something that happened a week or a fortnight ago, you can watch them at your convenience and make informed decisions.

With these advantages, you can ensure safety for yourself, your loved ones, and your valuables. However, miscreants might find a way about these systems too, by blocking the view of the camera or by keeping their face hidden. Hence we suggest that if there are other cameras around, the police can pick up similar details from another angle, to try and crack the details about crimes.

We hope with these points in mind, you will definitely secure your home with CCTV cameras. After all “Safety first is safety always!”

# | Smart Home System

## What is a smart home system?

The smart home system is the “hub,” so to speak, of your smart home. Either through a wall-mounted unit or software accessible via the Internet, a smart home system gathers unique information from each of your smart devices or appliances and allows you to control all your devices in one place. Because the smart home market is still emerging, there are several different options for smart home systems or home automation hubs, most of which are only compatible with specific other systems—so be sure to confirm compatibility before purchasing.

**Convenience.** Smart switches can be controlled at any time and from anywhere, as long as there is a WiFi connection. For example, if a homeowner is out for the day or is traveling, lights or appliances can be turned off to save on energy. Similarly, lights can be turned on remotely at night for added security. Smart switches can even be programmed to turn on when someone enters a room and turn off when they leave.

**Ambiance.** A smart switch can be set to adjust based on activity. For example, the switch may be programmed to gradually increase the brightness of lights during the morning make-up time and gradually dim them at bedtime. **Multi-device Integration.** As part of smart home automation, most smart switches can integrate several devices for a more convenient living experience. For example, a smart switch could be programmed as a custom alarm – turning on lighting in the morning along with favorite music. Similarly, a smart switch may be programmed to turn on lighting as well as air conditioning prior to homeowners arriving home on a summer evening.

**Increased security.** Some smart switches can be connected to home alarm and security systems for greater security when homeowners are away. Many video doorbells can be linked to a smart light switch and even a video cam and motion sensors for added security.

**Cost savings.** Using smart switches to efficiently regulate lighting, heating, and cooling and appliance usage can result in significant savings in energy costs each month.

## | Solar System

Of the benefits of solar energy and its advantages over other types of energy necessary to talk about the first thing we need to say without a doubt is that this type of energy will not end any time. Currently we use oil, natural gas will be exhausted in the near future as energy types and designed according to these fuels and infrastructure would not be wrong if we also prepared the system will collapse completely. But solar energy has the world will be with us, and quite to the end of humanity will survive. Therefore, any investment made will last forever in the short term but should be considered.

### | Fire alarm system (Addressable System)

To meet the requirements of our ever-changing market, we pride ourselves on being a complete system supplier. This means our customers can rely on us for their entire fire system requirements.

Our product range now incorporates conventional & analogue addressable fire detection systems, fire fighting telephone systems, voice evacuation systems, carbon monoxide & combustible gas detection systems along with state of the art aspiration detection systems.

One of the main advantages of using a complete system supplier, rather than a component supplier, is that system wide compatibility is assured. Marketing our products as systems has played an important part in the success of our Zeta branded products worldwide. When the system is sourced from one manufacturer, there is one point of contact and no compatibility issues.

Our continued inward investment and constant endeavour to offer the very best products is recognised by our increased turnover and profit margin year-on-year. Our mission is to support our existing & future customers by providing them with the highest quality products, at the most competitive prices.

We have a dedicated team of designers with many years experience of fire alarm and related product design. They are always keen to accept a new challenge.

## | Brands

Leading importer of electrical and lighting products from leading brand manufacturers. We ensure that all the products we supply comply with all relevant International Standards. We supply products from many other premium manufacturers. We employ technical sales staff to offer friendly, knowledgeable and efficient customer service and to maintain a relevant knowledge base for the benefit of our customers.

# Projects

## 2010 - 2013

### Supplying and delivery of electrical materials for Qasrok District

Client: KRG  
Date: April 2011  
Location: Kelek ,Kurdistan IQ

### Delivery and supply of electrical materials for Sheladze District

Client: KRG  
Date: Sep 2011  
Location: Sheladize, Iraq

### Reducing electricity overload of Berderesh District

Client: KRG  
Date: March 2013  
Location: Berderesh , Kurdistan IQ

### Replacing two electrical feeders for Akre District

Client: KRG  
Date: Sep 2013  
Location: Akre, Kurdistan IQ

### Supplying of electrical materials to improve Duhok city roads lighting

Client:KRG  
Date:2010  
Location: Duhok, Kurdistan, IQ

### Road lighting for main roads of Kelek within Kelek District

Client: KRG  
Date: Jan 2011  
Location: Kelek ,Kurdistan IQ

### Delivery and supply of electrical materials for Duhok department of electricity

Client: KRG  
Date: July 2011  
Location: Duhok, Kurdistan , IQ

### Connecting electricity network to Sarzer border crossing point

Client: KRG  
Date: Feb 2012  
Location: Port of entry between Iraq & Turkey

### Connecting electricity network to villages within Akre District area

Client: KRG  
Date: Sep 2013  
Location: Akre , Kurdistan IQ

## 2014 - 2017

### Rehabilitation and repairing of electricity network Peshabor border crossing point

Client: KRG

Date: 2014

Location: Zakho , Iraq

### Installation of voltage boards for MRF Quattro residential project

Client: MRF GROUP

Date: 2017

Location: Erbil , Kurdistan IQ

### Replacing electricity feeders and attaching electricity network within Akre District

Client: KRG

Date: March 2014

Location: Akre, Kurdistan IQ

### Supply and delivery of electrical materials for dept. of electricity of Duhok governorate

Client: Ministry of Electricity Kurdistan Iraq

Date: Jan 2015

Location: Kurdistan , Iraq

## 2018 - 2020

### Supplying and delivery of electrical materials for LAWAN Residential city project

Client: MRF GROUP

Date: 2018 - 2020

Location: Nizarke, Duhok, Kurdistan IQ

### Rehabilitation of electricity Distribution Network Zakho District

Client: Kurdistan Regional government

Date: April 2018

Location: Zakho, Kurdistan Iraq

### Construction of (Al Dawasa Electric station) in Mosul Iraq

Client: Iraqi Government

Date: Oct/2018

Location: Mosul Iraq

### Supplying and delivery of electrical materials plus installations of L.V boards for Roj Residential city project

Client: LALAV GROUP

Date: 2019 - 2020

Location: Malta, Duhok, Kurdistan IQ

## Projects

### 2021 - 2022

#### Rehabilitation of 24 farms in Sinjar-Iraq Subcontract No. PO-IRP-PROG-CONS-SNJ033

Client: Chemonics  
Date: December 2021  
Location: Sinjar - Iraq

#### Supply and installation Bulgur Factories 2 station baasika.

Client: Chemonics  
Date: June 2021  
Location: Baasika - Iraq

#### Supply street light 3000 pcs with cable and all accessories.

Client: Chemonics  
Date: April 2021  
Location: Mosul- Iraq

#### Improving Road Safety on the Hamdaniya Highway 7Km street cable and pole light, transformers.

Client: Chemonics  
Date: May 2021  
Location: Hamdaniyah - Iraq

#### Rehabilitation of the Electricity Network.

Client: Chemonics  
Date: May 2021  
Location: Hamdaniyah - Iraq

#### Site building and infrastructure construction.

Client: Samaritans Purse Organization  
Date: December 2021  
Location: Baadry - Iraq

#### Providing and installation of electrical supplies for MB Tower.

Client: MB Construction Co.  
Date: January 2020 - Present  
Location: Shindokha - Duhok, Iraq

#### Providing and installation of electrical supplies for MB Business Tower.

Client: MB Construction Co.  
Date: January 2020 - Present  
Location: Duhok, Iraq

## | Projects

### | 2021 - 2022

| **Providing and installing electrical supplies (Lighting, Cabling, electrical boards...etc.) for Park View Apartments Project.**

Client: Dara Company  
Date: February 2022  
Location: Erbil - Iraq

| **Providing and installing electrical supplies (Lighting, Cabling, electrical boards...etc.) for Duhok Tower 2 Apartments Project.**

Client: MRF  
Date: 2021 - Present  
Location: Duhok, Shele - Iraq

| **Providing and installing electrical supplies (Lighting, Cabling, electrical boards...etc.) for Baz Towers Apartments Project.**

Client: MRF  
Date: 2021 - Present  
Location: Erbil - Iraq

| **Providing and installing electrical supplies (Lighting, Cabling, electrical boards...etc.) for Sky View Apartments Project.**

To whom it might concern

It is with much enthusiasm that I am writing to recommend the services of Sulav Company.

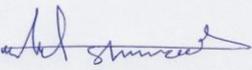

We have dealt with Sulav Company for purchasing of Electric materials for our organization and the latest order that has been delivered by the company is the purchase and delivery of different sorts of electrical sewing machines from Dubai, UAE.

I am happy therefore to unreservedly recommend the services of Sulav Company for any future projects.

If you have any questions, please feel free to contact me.

Sincerely,

**PURCHASE ORDER MODIFICATION**

<b>Supplier:</b> Sulav Electric Company <b>Attention:</b> Hoshank Ameen Abdullah <b>Address:</b> 11 Ayloul St, Malta. <b>Supplier City:</b> Dohok, Iraq. <b>Telephone:</b> +964 (750) 450 0745 <b>Email:</b> <a href="mailto:electric@Sulavco.com">electric@Sulavco.com</a>	<b>Modification Identification:</b> Modification Number: 1 <b>Reference Purchase Order Number:</b> IRP2-PROG-NWA005-01 (streetlight) <b>Activity:</b> NWA005
<b>Modification Effective Date:</b> January 19 <sup>th</sup> , 2023	

**Modification Details:**

**1. Background.**

On Sep 12<sup>th</sup>, 2022, the parties entered a purchase order # IRP2-PROG-NWA005-01 (streetlight) under NWA005 activity to supply and deliver LED streetlight, galvanized fixing arms, cable and hanging cable connector. And the original delivery due date was 8<sup>th</sup> Jan 2023. However, due to unforeseen reasons from Chemonics' side with the end user and approval of LED lights. As such the subcontractor could not deliver the items within the original timeline. Now the LED lights are approved and the timeline can be determined, this retroactive modification extends the delivery due date.

Due to above forementioned reasons, the subcontractor has been unable to deliver the items within the originally agreed timeline. Per Article X. Excusable Delays, the Contractor is authorizing at no additional cost to the subcontractor, a time extension, as the delays arose from causes beyond the subcontractor's control and without the fault or negligence of the Subcontractor. The Subcontractor provided a new delivery date of Feb 28<sup>th</sup>, 2023. This modification is necessary to extend the original Purchase Order date through Feb 28<sup>th</sup>, 2023.

**2. Purpose.** The purpose of this modification is to:

(a) Modify the delivery date to Feb 28<sup>th</sup>, 2023.

**3. Modification.** Specifically, Purchase Order No (IRP2-PROG-NWA005-01 (streetlight) is modified by:

(a) Deleting "Jan 8, 2023" from the "delivery due date" section on page 1 of the original purchase order and replacing this text with "Feb 28<sup>th</sup>, 2023".

**All other terms and conditions of the original Purchase Order No. IRP2-PROG-NWA005-01 (streetlight) remain in effect and unchanged.**

## TREVI COMPANY

July 28, 2019

To whom it may concern

It is with much enthusiasm that I am writing to recommend the services of Sulav Company.

We have been dealing with Sulav Company for the past five years and have always been completely satisfied with the services they provided. The company has been supplying different materials and items for our project during the course of carrying out the maintenance task at the Mosul Dam in Iraq under the coordination of the US Army Corps of Engineers Mosul Dam Task Force and in collaboration with partner companies Seli and Drafinsub. Sulav Company did an excellent job through being punctual and offering high quality materials with the most competitive rates in market.

We have also hired them on occasion for extra jobs, such as providing professional expertise, etc. They have been very reasonably priced, and always do exactly what we ask of them.

I'm happy therefore to unreservedly recommend the services of Sulav Company for any future projects. If you have any questions, please feel free to contact me.

Sincerely,

REQUEST FOR QUOTATION NO: RFQ/UNHCR/IRQ/DHK/2022/086

**For Rehabilitation of Streetlights in Khanke, Shekhan, and Rwanga IDP Camps, Duhok Governorate, Iraq**  
**QUOTATION TO BE RECEIVED ON OR BEFORE: 29/09/2022 by 17:00 hrs (Iraq time)**

The Office of the United Nations High Commissioner for Refugees (UNHCR), office in Erbil, request your price offer **For Rehabilitation of Streetlights in Khanke, Shekhan, and Rwanga IDP Camps, Duhok Governorate, Iraq**. Please note that figures have been stated in order to enable bidders to have an indication of the projected requirements. It does not represent a commitment that UNHCR will purchase the above quantities. Quantities may vary and will depend on the actual requirements and funds regulated by issuance of individual Purchase Orders.

The following Annexes are an integral part of this RFQ:

- Annex A : Financial Offer Form and Technical specifications.
- Annex B : Scope of Work (SOW).
- Annex C : Vendor Registration Form *(For suppliers who are not registered with UNHCR)*.
- Annex D : UNHCR's General Conditions of Contracts for the Provision of Goods and services.
- Annex E : Supplier's Code of conduct
- Annex F : UNHCR General Conditions of Contracts for Civil works (October 2000)

**Please note that submitting an offer is deemed as full acceptance of UNHCR's General Conditions for contracts**

**1. Technical Requirements: (Please submit with your offer based on the following criteria):**

S/N	Items	RFQ Specific Requirements	Pass/Fail
1	<b>Business Registration Certificate</b>	Is the company registered as a construction or general contracting company in IRAQ (Federal Government or Kurdistan Region of Iraq)? <b>No Joint Venture will be accepted.</b>	
2	<b>Past Experience</b>	Copies of 3 (Purchase Orders (POs), contract agreements, or work orders) attached with proof of project completion certificate/ performance letter issued by the client (Showing value, time completed, organization or firm for which completed, contact details of the organizations) awarded and served within the past 10 years. The actual copies of POs, contracts, and work orders should relate to similar projects.	
3	<b>Works plan</b>	Detailed and realistic work plan with Work Schedule/ Gantt chart showing the starting and end of each activity. Any Gantt chart more than 15% or less than 15% for the proposed duration will be considered as fail.	
<b>Pass/Fail</b>			

**2. Technical Evaluation Criteria (Pass/Fail):**

UNHCR will evaluate the technical offers based on the following described criteria in order to attribute a "PASS/ FAIL" to the offers.

**3. Delivery Point:**

- Rehabilitation works of Streetlights will be carried out in Khanke, Shekhan, and Rwanga IDP Camps, Duhok Governorate, Iraq.

**4. Financial Offer:**

Please submit your price offer, using financial form (Annex A).

UNHCR is VAT exempted, with this regard, price has to be given without VAT.

The fairly priced, substantially compliant offer will subsequently be recommended for a contract award.

Your quotation must be valid for at least **90 days**. The standard payment terms of UNHCR is net 30 days upon satisfactory delivery of goods and acceptance thereof by UNHCR.

**5. RFQ Submission**

We would appreciate receiving your quotation on or before **29/09/2022 by 17:00 hrs.** (Iraq time) by e-mail in PDF format to [irqdtd@unhcr.org](mailto:irqdtd@unhcr.org)

Please indicate in the e-mail subject field:

- RFQ/UNHCR/IRQ/DHK/2022/086
- Name of your firm
- Number of e-mails that are sent (example: 1/2, 2/2)

Thank you for your kind attention.

Dear Sir/Madam,

**Ref: HCR/IRQER/2022/RFQ-086 – REHABILITATION OF STREETLIGHTS IN KHANKE, SHEKHAN, AND RWANGA IDP CAMPS IN DUHOK**

Thank you for submitting your offer in response to our RFP number HCR/IRQDHK/2022/RFQ-086 for Rehabilitation of Streetlights in Khanke, Shekhan, and Rwanga in Duhok.

Please be informed that UNHCR's Local Committee on Contracts in its meeting on 21 November 2022 has approved the award of a contract to your company at an estimated not to exceed contract value of USD 86,864.00 (United State Dollars Eighty-six thousand and eight hundred sixty-four only).

Any delays beyond the agreed upon completion period as per the agreement and Purchase Order will attract a liquidation damage at the rate of USD 0.1% percent per day for the value of uncompleted work. UNHCR's team of engineers will determine the value of such uncompleted work and their decision will be final.

UNHCR will not release any advance payment unless the same amount is provided by your Company in the form of bank guarantee or 'good for payment' cheque made out in the name of UNHCR.

UNHCR will soon share a copy of the Service Contract to be signed between UNHCR and your company. The deadline for the completion of the work will be 70 calendar days from the signing of the contract.

We thank you for your interest in doing business with UNHCR and look forward to a fruitful working relationship with your company.

Congratulations

14 December 2023

Dear Sir/Madam,

**Ref: HCR/IRQ/DHK/2023/RFP-037(Re-tendering) for the Installation of Solar System for Wastewater Treatment Plant in Kabarto Camp, Duhok Governorate, Iraq.**

UNHCR would like to thank you for your participation by submitting your offer in response to our RFP number HCR/IRQ/DHK/2023/RFP-037(Re-tendering) dated 06 September 2023 for the Installation of Solar System for Wastewater Treatment Plant in Kabarto Camp, Duhok Governorate, Iraq.

Supply Unit UNHCR Erbil Office is pleased to inform you that after a thorough review of the offer submitted by your company it is considered for the award of contract.

UNHCR is in the process of finalization of the contract for the above-mentioned requirements with total sum of USD 393,550.00 (Three hundred ninety-three thousand five hundred and fifty Dollars) which will be shared with your company for acknowledgement in due course of time.

Please note that the works are expected to be completed within 13 weeks from the date the site handover. However, before we can affect the award, kindly furnish us with 10% Bank Guarantee of the contract sum from a reputable bank in the next 7 days. The bank guarantee must be valid for ten (10) months and (01) week to cover the entire period of the work implementation and defect liability. Please indicate the following contract number on the Bank Guarantee: **HCR/IRQ/CEO/2023/CON-042.**

UNHCR would like you to confirm that you will be able to successfully complete the works to acceptable standards as per the specifications requested and schedule of works on week-by-week basis. Once UNHCR has received this information, we will start preparing the Purchase Order and Contract documents.

Please respond to our letter not later than 17 December 2023 at 14:00 HRS Iraq time.

We sincerely thank you for your interest in doing business with UNHCR. You may wish to visit our website; on <https://www.unhcr.org/get-involved/work-us/supply-chain-management> which provides a complete guidance to how to do business with UNHCR.

Yours sincerely,

### Additional Notes:

- This purchase order is issued by Chemonics Iraq LLC ("Chemonics") on behalf of the USAID Iraq Regional Program, USAID Contract No. 7200AA19D00015, Task Order Number: 7200AA21F00006. This project is being implemented by Chemonics in the Cooperating Country of Iraq.
- The authorized USAID Geographic Code for this purchase order is Geographic Code 935.
- All electrical commodities must operate on the following voltage: **220V, 50Hz.**
- The vendor is required to deliver all of the above listed items to the specified address; it may not use a third-party delivery services unless authorized by Chemonics.
- The terms and conditions (Attachment 1) found in the following pages are incorporated into and form an integral part of this purchase order.
- Any representations and certifications submitted resulting in award of this Purchase Order (PO) are hereby incorporated either in full text or by reference, and any updated representations and certifications submitted thereafter are incorporated by reference and made a part of this PO with the same force and effect as if they were incorporated by full text. By signing this PO, the Supplier hereby certifies that as of the time of award of this PO: (1) the Supplier, including its principals, is not debarred, suspended or proposed for debarment or declared ineligible for award by any U.S. Federal agency; (2) no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of the U.S. Congress, an officer or employee of the U.S. Congress, or an employee of a member of the U.S. Congress on its behalf in connection with awarding the contract or this PO; and (3) no changes have occurred to any other representations and certifications made by the Supplier resulting in award of this PO. The Supplier agrees to promptly notify Chemonics in writing of any changes occurring at any time during performance of this PO to any representations and certifications submitted by the Supplier.

### Attachment 1: Chemonics Iraq LLC Purchase Order Standard Terms and Conditions

- DEFINITIONS:** The following definitions apply to this purchase order and any related correspondence:
  - "Chemonics" means Chemonics Iraq LLC.
  - "Cooperating Country" means the country(ies), identified on the purchase order cover page, where it
  - "Delivery Incoterm" refers to the international commerce term (Incoterm) established by the Internat
  - "FAR" means the United States Federal Acquisition Regulation.
  - "Geographic Code" means the country(ies) or area(s) assigned by USAID to a certain three digit code, as defined in United States Code 1
  - "Supplier" means the individual or firm, identified on the purchase order cover page, supplying the goods and/or services under this order
  - "U.S." or "United States" means the United States of America, including any State(s) of the United States, the District of Columbia, and areas of U.S.-associated sovereignty, including commonwealths, territories and possessions.
  - "USAID" means the United States Agency for International Development.
- CONTRACT:** This purchase order (PO), when properly completed and signed by both parties, is the only form which will be recognized by Chemonics and will constitute the final-price contract. No terms stated by the Supplier in accepting or acknowledging this order shall be binding on Chemonics unless accepted in writing by Chemonics. The purchase order may not be assigned or delegated, in whole or in part, by the Supplier without the written consent of Chemonics; absent such written consent, any assignment is void.
- PAYMENT:** Payment shall be made—via wire transfer—in the currency identified on the purchase order cover page for items that have been delivered to the delivery destination(s) set forth in the purchase order and that have been inspected and accepted by Chemonics. Chemonics reserves the right to split the total purchase order amount and pay for line items inspected and accepted individually in accordance to the net 30 day payment terms. The Supplier shall submit an original invoice or electronic invoice that includes, at a minimum: (a) name and address of the Supplier; (b) invoice date and number; (c) PO number; (d) description, quantity, unit of measure, unit price and extended price of the items delivered. Payment will only be issued to the Supplier identified on the purchase order cover page; payment will not be issued to a third party. Chemonics is only accountable for the bank outward transfer fees, and the Supplier is accountable if the beneficiary bank deducts inward transfers or a commission, as well as any fees owed to the Central Bank of Iraq during the wire transfer.
- ELIGIBILITY OF COMMODITIES AND SUPPLIERS:** The Supplier shall adhere to the following in carrying out this purchase order:
  - All commodities must be new and unused unless otherwise authorized in writing by Chemonics.
  - All electrical commodities must operate on the voltage and frequency identified on the purchase order cover page. Transformers will not be accepted. Auto-sensing, multi-voltage power supplies are preferred over single-voltage items.
  - All commodities supplied under this order must comply with the authorized USAID Geographic Code identified on the purchase order cover page in accordance with 22 CFR §228 ("Rules for Procurement of Commodities and Services Financed by USAID" available at <https://www.ecfr.gov/cgi-bin/text-id/TSID-63765683c154056a4d859f0d475784&mc=track&node=pt22.1.228&rgn=div5>), unless otherwise indicated in writing by Chemonics.
  - No commodities made in—or containing a component made in—Cuba, Iran, North Korea, or Syria may be supplied.
  - The Supplier must be an organization incorporated or legally organized under the laws of—or (if an individual) a citizen or legal resident of—a country in the USAID Geographic Code identified on the PO cover page. The Supplier must also be meet the nationality requirements of 22 CFR 228.
  - No commodities or services shall be eligible for payment under this order if provided by a vendor included on any list of suspended, debarred, or ineligible bidders used by USAID or the United States Government.
  - Mandatory Vetting:** Pursuant to AIDAR 752.204-71 all recipients of Chemonics Iraq awards above \$25,000 must comply with vetting requirements of all key individuals under the given award. No contract will be provided until the recipient organization and all key individuals under the organization have passed vetting. The purpose of vetting is to mitigate the risk that USAID funds and other resources do not, even inadvertently provide support or benefit to individuals or entities that are terrorists, supporters of terrorists, or affiliated with terrorists.
- ELIGIBILITY OF TRANSPORTATION SERVICES:** Any ocean or any international air shipments financed by this purchase order must be made on carriers and vessels under flag registry of the United States. If such carriers or vessels are not available, the Supplier shall notify Chemonics prior to shipment in order to request further written instructions. Failure to use such U.S. flag carriers/vessels without prior written authorization from Chemonics shall be grounds for unilateral termination for default of the purchase order by Chemonics, with no payment being issued for any shipping/transportation costs.
- WARRANTY:** The Supplier warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this PO. All equipment supplied under this order must be covered by the manufacturer's standard international warranty which shall, at a minimum, protect Chemonics from any loss due to defective workmanship, material, and parts, for 12 (twelve) months (unless otherwise stated on the purchase order document) after the equipment is delivered to and
